

THIS WEEK AT BCHS

Belonging, Excellence, Accountability, Respect, Safety

January 23 - January 27, 2023

(For archived Newsletters please click [here](#))

Please check out the BCHS Events Calendar <https://bchs.crps.ca/>.

Check out our Daily School Announcements [here](#).

Career Explorations Grade 9

This week while the Grade 10s, 11s, and 12s are writing exams; the Grade 9s have an opportunity to work with various employers in the Bow Valley and investigate possible careers for their future. Our students are being welcomed by physiotherapists, elementary schools, hospitals, veterinary practices, sports medicine clinics, libraries, auto mechanics and commercial kitchens. Thank you to all the employers who are hosting our students!

SALTS (Sail and Life Training Society) Victoria, BC March 2023

SALTS Trip MARCH 26th - 31st

*If you are interested in sailing on a tall ship this spring, there is a student & parent info meeting on:

Thursday, Jan 26th @ 7pm in the library

*We are looking to have BCHS students join our trip!

*Total cost of the trip will be around \$2000

*If you have any questions before the meeting, please email: krystal.mackinnon@crps.ca

Ahoy Mate!

Exam Week Reminder

Students should arrive ready for their exam at 8:45 am. All exams start at 9 am. Exams run from Wednesday, January 18 to Friday, January 27 for Grades 10 - 12. Grade 9s have the option to take part in Career Explorations Week from January 23 - 27. Semester 2 starts on Monday, January 30.

Caribou Kids Ski Pass

Banff school students will enjoy a (almost) free season's ski pass again this winter! In its 16th year, Banff Lodging Co and Banff Mount Norquay remain committed to offering the Caribou Kids Season Ski Pass program for students enrolled at Banff schools. Please [click here](#) for more information and the Norquay form.

School Fees

School fees are now overdue. You can find your child's fees on PowerSchool Parent Portal. Debit or credit card payments can be made online through your Parent Portal. Please contact Renee Husdal at renee.husdal@crps.ca to make payment arrangements or if you have any questions.

Flu Season and COVID reminders

Please remain at home if you are displaying **flu or COVID-19 symptoms** and follow the current recommendations for staying away from work or school if displaying symptoms. We request that parents do not send their child to school if they feel ill. Please let us know they are absent due to an illness so we can keep track of any potential outbreaks which are considered 10% or more of the student population. Read this [letter dated November 2023 from the Interim Chief and Senior Medical Officers of Health](#) in relation to the rise in influenza cases seen in school recently. If your child tests positive for COVID-19 please read the advice for isolation: <https://www.albertahealthservices.ca/topics/Page17239.aspx>

Dual Credit Courses with Olds College

These are the courses available in Semester 2. See Ms. Miles or Ms. Bekar for further details.

BUSINESS MANAGEMENT DIPLOMA

EARN COLLEGE CREDITS IN HIGH SCHOOL!

Are you interested in a career within the Business Industry?

Through project-based learning, you'll have the opportunity to practice applying foundational business concepts to real world problems. Working alongside business owners and clients, you'll complete a semester-long project identifying business problems through research and the development of meaningful and effective solutions supported by evidence.

ACT 1011 / TERM: WINTER 2023 Accounting Principles

Feb 27 - May 19, 2023 | Online, Asynchronous

In ACT 1011, students will have an introduction to financial accounting focusing on the accounting cycle and the preparation of financial statements. Topics include accounting for merchandising activities, internal control, accounting for cash, temporary investments, accounts receivable, inventories, cost of goods sold, and current liabilities.

BUSINESS MANAGEMENT DIPLOMA SPORTS MANAGEMENT MAJOR

Does a career in athletic training interest you?

SPM 1020 / TERM: WINTER 2023 TRAINING FOR PERFORMANCE

Feb 27 - May 19, 2023 | Online, Asynchronous

In SPM 1020, students will learn about many aspects of training for athletic performance while working on the design of an athletic performance plan in a chosen sport of their choice. They will analyze the basic science behind activity, energy systems, and macronutrients in sport training. Students will also explore how training for athletic performance relates to diverse populations, training facilities, equipment, schedules, budgets, as well as individual and team training preferences. At the end of this course, the student project will have produced a complete athletic performance plan that they can modify in the future to fit any sport.

EARN COLLEGE CREDITS IN HIGH SCHOOL

Prepare for an exciting and fulfilling career in sports administration with the Business Management diploma, majoring in Sports Management. This two-year program combines the administration of an sport with the foundations of business to provide you with the skills to become coaches and planners in this ever-changing field.

The growing use of technology in modern agriculture is mind-blowing! Do you want to see if you may have a future career in this industry for you?

Precision Agriculture Techgromony Diploma

ATE 1007 / TERM: WINTER 2023

Electronics & Control Systems in Precision Agriculture

Feb 27 - May 18, 2023 | Online, Asynchronous | 16 Weeks | 160 hours

During this course you will learn in detail about low hardware, software, and electronic components and their programming in agricultural systems. From GPS/GNSS to precision agriculture controllers, and the systems design, programming, and troubleshooting that accompanies them, you will develop detailed technical understanding and skills that can be applied to real-life applications and opportunities in precision agriculture. Taking this course will change the way you think about technology. Every time you see a tractor driving straight up and cover a field, a sprayer turning on or off boom sections, or a combine unloading grain, you will begin to think "How does that work?" or even better "I know how that works!"

EARN COLLEGE CREDITS IN HIGH SCHOOL

The Olds College Precision Agriculture Techgromony Diploma prepares graduates for entry into careers that bridge the gaps between agronomy, agriculture machinery management, and data science caused by the rapid evolution of high-speed technology.

Land & Water Resources Diploma

EARN COLLEGE CREDITS IN HIGH SCHOOL

Are you interested in a future career related to land sustainability and restoration?

This course provides an introduction to ecological principles at the species, population, community and ecosystem levels. Specific application of ecology to sustainability and the management of forest and grassland ecosystems are studied.

EVS 1210 / TERM: WINTER 2023
APPLIED ECOLOGY

Feb 27 - May 18, 2023 | Online, Asynchronous

In EVS 1210, students will learn to look at the natural world around you with new eyes. Ecology can be studied at a number of different levels: species (i.e. species' adaptations have allowed them to survive in specific habitats), populations (i.e. predator/prey relationships or other types of population interactions), communities (i.e. how plant and animal communities change over time), and ecosystems (i.e. how nutrients are recycled in a forest ecosystem). Specific application of ecology to sustainability and the management of forest and grassland ecosystems are studied. In addition, students will apply some of these principles to real problems such as global climate change, acidification of the oceans, loss of biodiversity in the world. Students in the class will look at problems and issues by reading short articles, watching videos about specific topics and by researching specific issues.

AIT 1140 / TERM: WINTER 2023 Veterinary Practice: The Team Connection

Feb 27 - May 18, 2023 | Asynchronous
Thinking of becoming a veterinarian or interested in working with animals as part of your career?

The Olds College Animal Health Technology Program prepares its graduates to be employed in the animal health industry by providing educational excellence in technical procedures, animal handling care, and client relations.

Animal Health Technology

EARN COLLEGE CREDITS IN HIGH SCHOOL

Students will become familiar with the aspects of the service cycle within a veterinary clinic. They will explore the inner workings of appointments, veterinary software and inventory, the importance of pet insurance, dealing with end of life situations (euthanasia), client invoicing and complaints and having open communication with fellow staff and clients. Having this knowledge will make them better team players and prepare them for the different situations they will encounter in practice. As a dual credit student, this course will help you become better prepared for the expectations of working in a veterinary clinic and the importance of positive interactions with clients.

Horticulturist Technologist Diploma

EARN COLLEGE CREDITS IN HIGH SCHOOL

Does a career in Alberta's growing food production industry interest you?

Cultivate an exciting career in horticulture with the Horticulturist Technologist diploma. This two-year program will provide you with a deep understanding of horticulture, including the production and management of plants, pests, herbicides, soils and water systems to achieve productive and sustainable systems.

HRT 1700 / TERM: WINTER 2023
PRODUCING HORTICULTURE CROPS

Feb 27 - May 18, 2023 | Online, Asynchronous

In HRT 1700, students will learn about the production side of horticulture work in Alberta. We grow a wide variety of plants in the profiles for a variety of purposes, including vegetables, fruit, plants for sale and much more! This course will introduce you to the range of plants available for a production business and introduce learners to the fundamentals of managing land for production purposes. You'll also get a first glimpse of producing a food crop in your own window sill with some tasty salad greens.

Hospitality & Tourism Management Diploma

Does a career in Alberta's growing tourism industry interest you? Are you ready to add skills to your resume?

EARN COLLEGE CREDITS IN HIGH SCHOOL!

This innovative program prepares its graduates to contribute to the growth and development of the Hospitality and Tourism industry by providing educational excellence in key sectors of the industry, including managerial, entrepreneurial and guest experience perspectives. Graduates will be positioned to take advantage of local, national and global career opportunities within this dynamic industry.

HAT 2038 / TERM: WINTER 2023 Accommodation Management

Feb 27 - May 19, 2023 | Online, Asynchronous
In HAT 2038, students will learn all about accommodation management in Alberta's tourism industry. Students will assess customer needs and develop strategies that create excellence of service. Students will gain an understanding of all aspects of management, including room division and evaluation of facilities. Students will learn to analyze those services and operations through the guest perspective in order to establish a strong accommodation model.

Social Media
